

Chamber Cleaning Tools

ScrubWRIGHT™ P/N: FTPEN-1

A unique tool for cleaning small, hard to reach areas. Interchangeable belt-shaped Diamond ScrubBELTS® in various grits create a versatile instrument perfect for polishing stains, scratches and process-induced residue from scratch sensitive surfaces. Spring adjustable for easy mounting and rotation of ScrubWRIGHT® ScrubBELT®.

ADVANTAGES

- **IMPROVED COST OF OWNERSHIP "COO":** Enables in-chamber cleaning of parts and eliminates Downtime and High Cost associated with removing and sending parts out for cleaning
- **HELPS REDUCE PARTICLES:** Effectively removes deposition from areas Critical to Process (Edge of ESC, Beam Defining Apertures...) to prevent unwanted flaking
- **SAFELY REMOVES DEPOSITION FROM SENSITIVE AREAS:** Able to focus Diamond ScrubBELT® directly onto a small area of deposition, preventing excess wear in surrounding areas
- **REDUCES DAMAGE TO CRITICAL PARTS:** Eliminates having to use ScotchBrite, razor blades and ceramic knives.
- **WIDE SELECTION OF DIAMOND ScrubBELTS®:** Allows for quick removal of deposition from aluminum, stainless steel, ceramic, glass, quartz and anodized surfaces

DESCRIPTION

PART NUMBER	DIMENSIONS	TIP DIMENSIONS	MATERIAL	ScrubBELTS®
FTPEN-1	165mm x 13mm x 10mm	6mm/15° Angle	High Impact Plastic w/Spring-Tensioned Attachment Mechanism	Diamond Grit: 280 to 1350 (See Pg 4 for P/N)

cleaning critical surfaces

ErgoWRENCH®

FT822 with 6" Handle (FT850) and Grip (HT5004)

Unique tool used for safer and more efficient scrubbing of hard to reach areas throughout vacuum chambers. The soft ergonomic grip provides ease of use, while stiff swivel head can be adjusted to optimize scrubbing angles. Different size Heads and Handles are interchangeable, which allows the ErgoWRENCH® to be adjusted for different applications.

ADVANTAGES

-  **IMPROVES TOOL AVAILABILITY:** Reduces scrub-time by focusing Diamond ScrubPAD directly onto Heavy Deposition buildup, quickly taking chamber back to bare metal.
-  **HELPS REDUCE PARTICLES:** Removes Heavy Deposition from areas Critical to Production, preventing unwanted flaking.
-  **SAFELY REMOVES DEPOSITION FROM SENSITIVE AREAS:** Able to focus Diamond ScrubPAD directly onto area of deposition to prevent excess wear of surrounding areas
-  **WIDE SELECTION OF DIAMOND ScrubPADS:** Allows for quick removal of deposition from aluminum, stainless steel, ceramic, glass, quartz and anodized surfaces while minimizing tool wear.

DESCRIPTION

HT5004 GRIP
FT850 HANDLE

FT821R LARGE
SWIVEL HEAD
(38.1 x 38.1 x 38.1)

FT823R LARGE
SWIVEL HEAD
(Rotates 90°)
(38.1 x 38.1 x 38.1)

FT822R MEDIUM
SWIVEL HEAD
(21.6 x 38.1 x 29.2)

FT824R SMALL
SWIVEL HEAD
(12.7 x 38.1 x 22.8)

All head measurements (A x B x C) are in millimeters.

FEATURES	MATERIAL	ScrubPADS
Swivel Parallel to Curve (FT823R Swivel Perpendicular to Curve)	Delrin Plastic w/Hook for ScrubPAD Attachment	280, 360 & 800 Diamond Grits Available (See Pg 4 for P/N's)

cleaning critical surfaces

VAT VALVE PM HANDLE

FT830 with FT852 18" Handle

A unique tool used to reach back into the deep areas of confined spaces, such as VAT Valves, Beam-Lines, Pump-Ports, Chamber Throats...

APPLICATIONS

FTPEN-1

- O-RING GROOVES
- DETAILED AREAS

ErgoWRENCH®

- HEAVY DEPOSITION BUILD-UP AREAS
- HARD TO REACH AREAS

VAT VALVE PM HANDLE

- FITS INTO TIGHT AREAS
- REACHES BACK INTO TIGHT AREAS
