

# FoamCOVER & BeardCOVER

ISO 5 / Class 100 Fiber-Free Cleanroom Foam Masks

## HT4401 - Foam Face Mask

### Description

Foamtec 4400 Series, Fiber-Free Foam Masks provide continuous particle/moisture control and cool, flexible comfort without the speech constraints, goggle/glasses steaming, or moisture build-up on the face typical of paper and dense cloth masks. Foamtec Foam Masks are completely free of fibers and are non-shedding for use in cleanrooms where ultra tight particle control is required.

Ideal for applications where fibers from non-woven masks may not be tolerated.

Laundered and packaged in an ISO 5 / Class 100 Cleanroom.

### Advantages

- Particle/moisture control restricts vapor transfer from breath to work surface.
- Cool comfort even during strenuous production and maintenance procedures.
- Easy to communicate and breathable making it ideal as an under mask for built-in fabric face veils and shields.
- No restriction of breath or speech clarity; reduces lifting or pulling down masks.
- Minimizes fogging of safety glasses/goggles.
- 100% fiber-free.

## HT4402 - Foam Beard Mask

### Cleanliness

Particles		ION's - Count of Extractable (PPM)	
> .5µ Via LPC	< 750/cm <sup>2</sup>	Chloride	< 5
TNVR's		Sodium	< 15
DI H <sub>2</sub> O	< 0.9g/m <sup>2</sup>	Potassium	< 2
